Number 44.

Local News of Interest in and About Champion

'JOCK'S WAGGIN' TONGUE

Vol. 5 Thurs. Nov. 6 No. 44
Jock McIntyre, Editor.

One of the greater of all universally useful and practical devices developed in the last century is the Aladdin Kerosene (coal oil) Mantle Lamp. As a scientific achievement it is singularly outstanding. Until its advent practically all the rural and small town homes were lighted with the dim, dingy, yellow glow of the old fashioned open flame kerosene lamp. Today over 7,000,000 persons enjoy the blessings and comfort of the abundance of Aladdin's pure soft mellow white light, and no other device can boast of a more enthusiastic host of satisfied users.

BACON FOR BRITAIN

— "v" —

During the period covered by the first two bacon agreements between Canada and Britain, commencing November, 1939, and ended October, 1941, Canada will have shipped to the United Kingdom approximately 756 million pounds of bacon, hams, and other pork cuts, with an estimated value at packing plants of about 133 million dollars. In addition, considerable quantities of edible pork offals, including kidneys, livers, and tongues have also been shipped.

Let's all go to the Red Cross Auction!

The wedding took place Tuesday, Nov. 4, in Vulcan of Miss Alice Hubbard to Mr. Ray Olhaiser. Father Ritter performed the ceremony.

Mr. and Mrs. George Smith are receiving congratulations on the birth of a son (James Douglas) at Vulcan hospital, Sunday, Nov. 2.

A shower for Miss Irene Siler and Mr. Wilford Greene was held at the home of Mr. and Mrs. Frank Davis on Saturday night, Oct. 17, when 45 guests enjoyed playing a number of games. Miss Siler, while hunting for a clock with the alarm ringing, discovered a number of lovely gifts for which she kindly thanked everyone. A very delicious lunch was served after which Mrs. E. Siler on behalf of the Marshall group presented Private Leslie Roades with a gift and good wishes was extended to him from every one present.

Esther Ferguson and daughter Lequita, were Lethbridge visitors Saturday.

W. F. Bozarth received a wire on Tuesday informing him once again he is a grandfather, when his daughter, Mrs. Frank R. Henry, of Seattle, gave birth to a baby girl on Nov. 4. Mother and daughter are doing well.

The Red Cross Auction to be held on the 22nd of November promises to be a real event. Donations have already been promised. Among donations already received are a registered pig donated by Mr. Bozarth, and a keg of nails donated by Mr. Diemant. Come on folks, let us have your donations and make plans to attend the auction! I. Granlin has donated the use of his store and Art Hopkins has donated his services as auctioneer.

Ruth Anderson was a Lethbridge visitor Saturday.

The regular meeting of the Ladies' Aid was held at the home of Mrs. Williamson, Thursday, at 2 p.m. Five members were present. Bills were passed and the date of the bazaar set for December 5.

Make plans to attend the Red Cross Auction on Saturday, Nov. 22. You will have a real good time and your donations of material and your purchases will greatly help this organization in its splendid work.

Mr. and Mrs. George Orr were Calgary visitors over the week-end.

Harry Allison and Major Lipsett, of the legal profession, and "Kink" Roanish, Midland Pacific, were visitors to Champion this week for the shooting.

Ren o Renaldi and John Goodman were Lethbridge visitors Saturday.

Bring in your donation for the Red Cross auction as soon as possible.

George Gilroy of the R.C.A.F., Lethbridge, was a week-end visitor in Champion.

Readers of the Chronicle can help greatly in making this paper more interesting by bringing in local items of news, goings and comings of residents and visitors. We would appreciate your assistance in keeping us informed. Drop in our mail your items.

Champion Red Cross branch gratefully acknowledged the following donations: Amity Club, 2 quilts; Mrs. Wm. McRea, 1 quilt; Women's Institute, 1 quilt; Fire-guard S.D., 1 quilt; Mrs. Cowgill, 1 pair socks.

Mr. and Mrs. E. Granlin were Lethbridge visitors Saturday.

The cream of happiness comes from the milk of human kindness.

CBC FARM COMMENTATORS TO DISCUSS FARMERS' PROBLEMS MONDAY, NOVEMBER 10

CBC Farm Broadcast commentators from across Canada will open National Farm Radio Forum in Toronto, November 10 at 9:30 p.m., C.S.T. The occasion which brings the Farm Commentators to Toronto will be the first national meeting of members of the two-and-a-half year old Farm Broadcast Department. Commentators to be heard in the opening broadcast will be Fergus Mutile (left top) from British Columbia; Hugh Boyd (lower left) from the Prairies; Don Fairbairn (top right), from Ontario, and Ralph Marven (right centre) from the Maritimes. Neil Morrison (left centre) and supervisor of Farm Broadcasts, Orville Shugg (centre), are co-authors of Farm Radio Forum and are responsible for developing this radio technique which operated successfully last winter in Eastern Canada. Armand Berube (lower right), directs the destinies of the French network farm broadcast, Le Revell Rural, from Montreal. Monsieur Berube will attend the conference of the Farm Broadcast Department, but since there are yet no Farm Forums in French Canada he will not take part in the opening broadcast.

The Red Cross room in the municipal offices is without chairs. Ten kitchen type chairs are urgently needed at once. Women from all the local organizations use these rooms to sew for the Red Cross. Let's see that we appreciate their efforts by making them comfortable as possible. Anyone wishing to donate one or more chairs may deliver them to the municipal office.

Donations of fur are coming into the Chronicle office in abundance. A great deal more is still wanted. Bring in your old fur. No matter how old it is or how small the piece, bring it in so that some lad on a minesweeper will be warm while on duty this winter.

Tell all your friends about the Red Cross Auction!

Seed growing is as profitable as most lines of farming provided a proper balance is maintained between the production of seed and the rest of the farm program.

WEDDINGS

MUELLER-CLOSS

A quiet wedding of interest took place in Lethbridge on October 25, when Thelma Elizabeth Closs, eldest daughter of Mr. and Mrs. E. A. Closs, and George Edward Mueller, youngest son of Mr. and Mrs. Louis Mueller of Champion were united in marriage.

The bride was attired in a floor length white sheer dress and floor length veil and necklace of pearls, and carried a bouquet of roses. The groom wore a boutonniere of carnations. The bridesmaid wore a floor length white sheer dress.

The groom was supported by his brother, Claude Mueller. The bride was attended by her sister, Miss Edna Closs. Rev. Garvin of Lethbridge performed the ceremony.

Mr. and Mrs. Mueller will reside on the groom's farm west of Champion.

C. H. S. Notes

The school was the scene of a cold blooded but unavoidable killing this week. To advance the cause of science, Epominoncus, the pet rattle snake that Bill Gatenby brought back from Medicine Hat, had to be examined closely. But it was found that he resented this, in fact he went so far as to look dangerous. A hurried conference was held and it was decided to give him the death penalty, with Mr. Lindstedt as executioner. Epominoncus by dint of many exertions, was lowered into a jar lined with chloroform where a few minutes later he breathed his last. He was then placed in a long tube lined with alcohol and by the time this issue goes to press he should be well preserved.

A teachers' convention was held this week and the students are going about with long faces because they cannot attend classes till Wednesday.

While your snooping reporter was doing some "public peeking" around the Chronicle office, he espied several cartons of foolscap destined for the school. Hm-m-m-m! Looks like exams are on the way!

The students of the C. H. S. were horrified Saturday morning to see that some villainous vandals had maliciously removed the old battle-scarred school vans from their last resting place in the van shed and, having no regard for the immensity of their crime, moved them into the street where they stood—pictures of righteous indignation during the wee hours of Saturday morning.

CAR TRAGEDY OCCURS SOUTH OF BARONS SATURDAY NIGHT —MR. AND MRS. H. HORN AND SON VICTIMS

BARONS, Nov. 3.—Three members of a well-known Southern Alberta family met death Saturday night when their car crashed through the railing of an irrigation bridge over the main canal of the Lethbridge Northern Irrigation district. The fatal accident occurred sometime after 8 o'clock three miles south of Barons, and the dead are Mr. and Mrs. Henry Horn and their six-year-old son, Emil, all of Vulcan. The Horns were reported driving home from a day's shopping in Lethbridge when their Ford car left the bridge over the canal and plunged into six feet of water. The car dropped probably 30 feet, landing upside down with only the rear wheels showing above the surface of the water. It is believed all three met instant death.

No Eye Witnesses

There were no eye witnesses, the accident being discovered by another motorists, Mrs. Bruce Clark of Barons, who happened along on her way home from Lethbridge. No ticing the broken railing on the side of the bridge, she stopped to investigate. She saw the wheels of an overturned car and notified the police at once.

Orders Inquest

Members of the R.C.M.P. investigated and found that all three members of the party in the car had been drowned. The driver of the machine was the son Emil. Dr. E. H. Freeze, coroner, ordered an inquest, which was convened and then adjourned to 2 p.m. Friday at Barons. The bodies were removed to Flock's funeral home, Lethbridge. The funeral will be held Wednesday at 2 p.m. at Vulcan.

It required two hours for the police, aided greatly by local residents, to recover the car from the icy waters of the canal. Block and tackle and a tractor were used in this operation.

The Horn family operated a farm east of Vulcan and have long resided there. Surviving are two daughters, Margaret, in training for a nurse at Galt hospital, Lethbridge, and her sister, attending school at High River.

LOCAL CAR DEALER REPORTS

EXTENT OF FORD WAR WORK

I. Granlin, well-known local car dealer, spent Monday in Calgary attending a general meeting of Ford dealers of the company's Calgary branch territory which includes Alberta and adjacent points in Saskatchewan and British Columbia.

Mr. Granlin is enthusiastic about the 1942 Ford and Mercury cars which he claims are the finest his company has ever produced.

"Of course, with the company's manufacturing plant so extensively engaged in war work, the supply of new cars will be drastically curtailed. However, the new models are designed, built and styled for long life and economical service," said Mr. Granlin.

In addition to having a preview of the new cars, Mr. Granlin heard addresses by R. M. and E. F. Millard, company executives from Windsor, Ont., and saw a motion picture showing the extent of war production in the great Ford plant at Windsor. Nearly 13,000 workers are busy day and night producing equipment for Empire armies.

"The Ford Company in Canada is the largest single source of military automotive equipment in the British Empire and has already supplied our fighting men with more than 100,000 fighting machines."

"Ford in the United States is now producing 1,850 and 2,000 horsepower engines for war planes. There is also a mammoth bomber plant nearing completion for the production of B-24D bombers, and plans are underway for the production of medium and heavy tanks in Ford's immense Rouge plant in Detroit," Mr. Granlin reports.

CHAMPION CHRONICLE

STANLEY ORRIS,
Editor and Publisher

An Independent Weekly Newspaper issued each Thursday afternoon at the office of publication, Champion, Alberta. Subscription price per year: In Canada, \$1.50, United States and other countries \$2.00. Reading notices 10c per count line, minimum 25c; government, municipal and legal advertising at legal rates. Display advertising rates on application.

Thursday, November 6, 1941.

WOMEN INVITED

—“v”—

Canadian women are now being invited to fight Hitler with one of their favorite weapons—a good meal. An urgent call has gone out from the department of national war services for 300 cooks.

Applicants don't need to be fancy culinary experts or dietitians in order to qualify. The main requirement is that they know the simple recipes for the “home-cooked” style of food so dear to the heart of the airman and soldier boy.

If the volunteer is accepted, she will be issued a smart uniform and enlisted in the Canadian Women's Auxiliary Air Force or the Canadian Women's Army Corps.

The need is a vital one and authorities have promised there will be no delay in handling applications. Successful applicants will be notified at once to report for medical examination. Rate of pay is 90 cents a day, with uniform, medical services and board supplied.

Application forms are available at all R.C.A.F. recruiting centres, Military District headquarters and at the offices of National Services divisional registrars throughout Canada.

Successful volunteers for the Canadian Women's Auxiliary Air Force will be sent for three weeks of training at Haverhill College, followed by a special six weeks cooking course at Guelph. They will then be posted to R.C.A.F. stations.

Chances for promotion in the cooking branch will be as good as in any other trade of the service auxiliaries. Every woman who steps forward will be playing an important role. Not only will she be helping to keep Canada's soldiers and airmen in trim by preparing good food for them, but she will also be releasing a man for service behind a gun.

—“v”—

AUTO ACCIDENTS ARE GREATER IN WINTER TIME

—“v”—

Shorter periods of daylight with the advent of winter and more driving hazards make it imperative for motorists to check over and “winterize” their cars, according to officials of the Alberta Motor Association.

Now is the time to see that all safety equipment of the car is in proper working order. Take no chances. The time may come when the saving factor between serious injury and death will be just the margin of safety that exists in the car equipment.

Provincial regulations require brakes to be kept in order and authority is given police authorities to test the efficiency of brakes at any time.

Under present conditions, motorists are urged to use more care when driving over railway crossings.

Despite the number that have been eliminated in the last 10 years, there are many of these hazardous crossings in this province.

The toll of fatalities this winter will be substantially reduced if drivers will take every care to see whether there is an oncoming train. In these short days, “Stop, Look and Listen” should be applied with greater observance than hitherto.

—“v”—

Rouge is what puts a girl beyond the pale.

CORRESPONDENCE

—“v”—

Barons, Alberta, Nov. 4, 1941.

Editor, Champion Chronicle.

Dear Sir:—You may be interested to know that the boys at the Keho Dome Oils Limited brought up a barrel full of oil on Monday. This is the second time oil sands have been drilled into in this well.

Drilling is proceeding steadily through these oil showings, gas pockets and fossils, and the officials of the company are highly pleased with present showings and anticipate surprising results at around another 1200 to 1500 feet.

The present showings are much better than expected.

Cheerio,

ART. ROBERTS.

—“v”—

The B. C. Sportsmen's Spitfire Fund is asking your co-operation in the raising of \$23,500 to buy a Spitfire fighter plane for the Empire's fighting forces. This fund is incorporated as part of “Wings for Britain,” which is registered under the department of National War Services.

In order that trappers may assist in this war effort, being conducted by those interested in our great outdoors, we are asking that you donate pelts of fur bearing animals. Any pelts you donate will automatically include you in a very interesting competition. Furs will be judged as to their quality and the trapper who sent in the winning fur will receive a cash prize of \$50. This will apply to furs before February 10, 1942. Furs after that date and up to June 10, 1942 will be placed in a second competition, the winner of which will receive a \$65 cash prize. The winning pelts of the two competitions will then be compared and the trapper who sent in the better of the two will be named Champion Pelter of Western Canada.

Pelts will be judged on their excellence in their particular class. For instance a coyote pelt will stand as good a chance of winning as a silver or cross fox. The value of the pelt in dollars does not enter into the matter as far as the competition is concerned. Points will be given entirely for quality in the fur's particular class and for handling of pelts, such as stretching, etc. Only furs donated to the Fund will be eligible for the competition. Here is your chance to show your ability as a trapper and pelter and at the same time assist tremendously in putting the B. C. Sportsmen's Spitfire Fund over the top. The winner of the Pelter Championship will receive wide publicity.

Furs donated to the fund by trappers will be sold at public auction by Little Bros. and no expenses or commissions will be charged by them in the handling of the furs.

All furs for the fund sent to Little Bros. will be under supervision of the Game Commission, who are kindly assisting the Spitfire Fund in every way possible.

Timber wolves, squirrels and weasels, will not be eligible for either of the prizes but they would be gladly accepted for the benefit of the fund.

Please clearly label any furs you donate or enter for the competition, as follows:

B. C. Sportsmen's Spitfire Fund,
Care of Little Bros.,
Vancouver, B.C.

Thanking you in anticipation of your taking part in this worthwhile effort.

Yours very truly,

R. M. Robertson, director,
B. C. Sportsmen's Spitfire Fund, Bank of Montreal,
Kamloops, B.C.

—“v”—

The man and woman approached the theatre, evidently expecting an evening's enjoyment. As the man stepped briskly forward to purchase the tickets, the woman grabbed his arm. “I don't want to see this show, Alfred; I do not like Chinese plays,” she exclaimed.

“But this is not a Chinese play.”
“It certainly is. The title is right there on the front of the theatre: Sun. Mon. Tu.”

BRITISH BACON ORDER DEMANDS BEST STOCK

To provide the quantity of bacon required by Britain more sows will be bred this fall. It should be the aim and desire of every hog producer to contribute to the good reputation of Canadian bacon, states the Agricultural Supplies Board. Good bacon cannot be produced by use of inferior breeding stock. Additions and replacements should be made with lots of the highest quality obtainable. Gilts should be selected from sows of known performance, urges the board.

Under the agreement for the ensuing 12 months (November 1941-42) the British Ministry of Food has asked Canada to supply not less than 600,000,000 pounds of bacon, hams and other cuts. Under the 1940-41 agreement Canada supplied 425,000,000 pounds of pork products. To supply the British request will require approximately 5,250,000 hogs. In addition, the demands of the Canadian market must be met.

COMING EVENTS, SALE ANNOUNCEMENTS AND CLASS ADS.

FOUND, STRAYED—Five calves, 4 black and white, about 10 months old; also one dark red calf. Owner may secure same by establishing identity and paying for this ad at the Chronicle office.

FOR RENT—Five-roomed house. Apply Champion Chronicle.

FOR SALE—Round Oak Cook Stove, good condition, cheap for cash. Apply at Champion Chronicle.

WANTED—a bright young ambitious boy to learn the printing trade. Apply at the Chronicle office.

Tested Recipes

—“V”—

VERSATILE LAMB

In recently discussing the ways of using the front quarter of lamb, methods were given for roasting—either the whole front, or the shoulder alone. If the latter method has been followed, why not carry out these suggestions for utilizing the remaining parts of the front (breast, shank and neck) in other tasty dishes.

It's easy to cook lamb, and as all cuts are tender it is not necessary to employ the ordinary methods of cooking less expensive cuts. Practically every part of lamb may be roasted, broiled or pan-broiled, as well as stewed and braised.

Another point! Lamb, in addition to its zest and flavor, its seasonal availability, and its simplicity of preparation, contains essential minerals and vitamins.

With these facts in mind, the Consumer Section, Marketing Service, Dominion Department of Agriculture, suggests the following recipes. In testing them, lamb fat (or dripping) was used successfully wherever “fat” was called for in the recipe.

The popular lamb garnishes—fresh green mint or sparkling mint jelly—are still favorites.

Serve lamb often—it's delicious; it's economical; it satisfies!

Scalloped Lamb

- 2½ pounds shoulder of lamb
- Flour
- 2 medium onions, minced
- ¾ cup sliced fresh or drained canned mushrooms (if desired)
- 1½ teaspoons salt
- 1 tablespoon granulated sugar
- ½ teaspoon pepper
- 1¼ cups hot water
- 1¼ cups strained canned tomato
- ½ toes

Trim excess fat from meat, melt in frying pan. Cut lamb into pieces for stew. Roll lightly in flour seasoned with part of the salt and pepper. Saute minced onion in fat, then add floured meat and cook until golden brown. Turn into casserole. Add mushrooms, sugar, pepper, hot water and tomatoes. Cover and cook in moderate oven 350 F until meat is tender—about 1½ hours. Remove cover during last ½ hour. Serve with boiled macaroni, spaghetti or noodles.

Browned Lamb Stew

- 2-3 pounds lean lamb, (neck, flank, breast or shoulder)
- 2 tablespoons fat
- 1 medium onion—finely chopped or sliced.
- ½ cup chopped celery
- 1 cubed carrot
- 4 cups water or
- 2 cups tomato juice and
- 3 cups water
- 1 teaspoon Worcestershire sauce
- Salt and pepper

Wipe and trim meat and cut into pieces about 2 inches square. Melt fat. Cook onion in fat until slightly browned. Add meat rolled in flour and brown in hot fat. Put meat and onion into covered saucepan. Add water and tomato juice and simmer for one hour. Add vegetables and cook slowly until meat and vegetables are tender. To thicken add flour mixed with cold water. Cook for several minutes, stirring constantly; season with salt and pepper before serving.

Tomato Dumplings

- 2 cups flour
- 3 teaspoons baking powder
- ¾-1 cup tomato juice
- 1 teaspoon salt

Sift dry ingredients. Add tomato juice to make stiff drop batter. Combine well. Drop by tablespoons on top of stew. Cover tightly and steam 12 minutes.

Lamb Loaf or Patties

- 2 pounds ground lamb
- 1 cup fine bread crumbs
- 2 tablespoons minced onion
- ½ cup chili sauce
- 1½ teaspoons salt
- ½ teaspoon pepper
- 1 egg slightly beaten
- ½ cup milk

Combine lamb with bread crumbs, onion, chili sauce, salt and pepper. Moisten with milk and slightly beaten egg. Pack in a loaf pan or ring mould. Bake in a moderate oven 350 F for one hour.

This recipe may be made into delicious individual patties for frying or broiling, by the addition of an extra ¼ cup of milk.

Kidney Sauté

- 3 lamb kidneys
- 1½ tablespoons fat
- 1½ tablespoons flour
- ½ cup tomato juice
- Salt and pepper

Remove fat and gristle from kidneys. Cut into pieces. Roll in flour. Add tomato juice. Simmer together for 3 minutes. Serves 3 to 4.

Braised Shoulder Chops

- 4 or 5 shoulder chops
- 1 tablespoon fat
- ½ cup tomatoes
- 1 slice of onion chopped
- 1 tablespoon flour
- ¾ cup hot water
- 1 teaspoon salt
- ½ teaspoon pepper

Brown chops on both sides, add vegetables, seasoning, and hot water. Place in a covered dish and bake in a slow oven 300-325 F until meat is tender (about 1 hour).

—“V”—

Barons News

—“V”—

After a great deal of planning and money raising, the Barons community hall has at last got under way. Early last spring a community meeting was called, and it was the wish of the community that the Barons W.I. take charge of soliciting funds. Just recently they have announced that sufficient funds have been collected to start the hall and an organization was formed under the same name of the Barons Community Hall Club. Harold Turner was elected as president and Milton Hodgson as treasurer. Mrs. A. Lyon is secretary of the organization. The committee have started work on the gathering of materials to erect the hall. The old brick school building has been purchased from the Barons Consolidated school and is being torn down and materials salvaged to be used in building the hall. All work is being donated by the farmers of the district and the village residents. The old school has not been in use since 1930, but has long been a landmark in the village as it was erected in 1911, and most of the younger people of the district received their education there. Close to two thousand dollars has been collected in the district toward the hall fund and dances, etc., are being sponsored from time to time to add to the fund. The Barons F.I. sponsored a dance Friday evening and cleared almost \$50 for the fund. A set of dishes were raffled and proceeds of this raffle added \$39 toward the hall. Another meeting of the hall club will be held Wednesday evening and further plans discussed for the building.

Mrs. S. Lake had the misfortune of falling on Sunday evening while looking after her chickens and broke her left arm. She also injured her hip in falling. She was alone at the time and was unable to phone for the doctor and had to remain all night without medical attention until a neighbor arrived in the morning and called for help. She was removed to the Carmangay hospital where she will be for several days.

A great many residents of the Vulcan district visited Barons on Sunday to view the scene of the accident of Saturday evening in which three Vulcan residents, Mr. and Mrs. Henry Horn and Emil Horn were killed. The car, a 1935 Ford, was almost demolished, one of the bridge timbers having been driven through the engine and another through the windshield.

Mr. and Mrs. Henry Horn and their son Emil, of Vulcan district, were killed Saturday evening shortly before 8 o'clock when their car, a 1935 Ford, crashed through the railing of the bridge over the Leth-

bridge Northern Irrigation canal into the water 30 feet below. A plank from the bridge rail was driven through the engine and another through the windshield of the car. The car was almost completely submerged in water with only the rear wheels showing. Mr. and Mrs. Bruce Clark noticed the break in the rail and saw the tail light of the car still burning and at once notified Constable Eaton at Barons. Rescue work was started at once and within two hours the car was lifted to the road. Block and tackle and tractors were used in raising it. The party was returning from Lethbridge at the time of the accident and the son was driving the car. A daughter, Margaret Horn, is a trainee at Galt hospital, and another daughter, Lilian, is a high school student at High River. Bodies of Mr. and Mrs. Horn and their son were removed to Flock's Funeral home in Lethbridge.

THE CHARTER OF THE ATLANTIC

O tides and winds of freedom,
Bear the message o'er the sea
That evil shall not triumph,
And all men shall be free.
Two nations stand together
As champions of the right,
Two beacons blaze together
Against the clouds of might.

Beware, ye Hosts of Satan,
Who blast each crippled land,
For God's avenger cometh
And the sword is in his hand.
His face is as the lightning,
His anger swift and sure,
His name is Truth and Justice
And his victories endure.

Beneath his mighty banner
We face the bitter odds;
We shall not faint nor falter,
For the cause we guard is God's.
We scorn the power of tyrants,
And the challenge they have hurled.

And march with souls undaunted,
To liberate the world.
—Frederick George Scott.

NEWS FROM HOME

When the evening shade is fallin' at the closing of the day,
An' a feller rests from labor, smokin' at his pipe of clay,
There's nothing does him so much good, be fortune up or down,
As the little country paper from his Old Home Town.

It ain't a thing of beauty and its print's not always clean,
But it straightens out his temper when a feller's feelin' mean;
It takes the wrinkles off his face an' brushes off the frown,
That little country paper from his Old Home Town.

It tells of all the parties and the balls of Punkin Row,
'Bout who spent Sunday with who's girl, and how the crops'll grow,
An' how it keeps a feller posted who's up and who is down,
That little country paper from his Old Home Town.

Now, I like to read the dailies and the story papers too,
And at times the yaller novels and some other trash—don't you?

But when I want some other readin' that'll brush away a frown,
I want that little paper from my Old Home Town.

THE PREVENTION OF THIN SHELLED EGGS

(Experimental Farms Note)

The revenue obtained from the farm poultry flock is influenced by the number and quality of eggs produced. The occurrence of soft or thin shelled eggs causes a considerable loss to the flock owner, especially during the winter months. The cause of faulty shelled eggs is usually due to the ration. With a large proportion of eggs required for export, it is particularly important that the shells are sufficiently strong to withstand the additional handling and shipping. Eggs with strong shells of good texture are also superior for hatching purposes.

Egg shells are made almost entirely of calcium carbonate and the first essential in avoiding thin shells is to provide an adequate supply of calcium to laying stock. The most common method of supplying this is to keep a small self-feeder in the pen filled with oyster shell or other high calcium feed. Sometimes laying stock refuse to consume oyster shell or other mineral in sufficient quantities for high egg production. When this occurs,

two or three pounds of pulverized oyster shell can be included in each hundred pounds of dry mash. Bone meal is also good for the same purpose. The addition of one or both of these minerals to the dry mash is a means of compelling the birds to consume more calcium.

To ensure the efficient use of the calcium supplied to laying birds during the winter months, it is now considered essential to provide an adequate amount of vitamin D in the ration. This is accomplished by including cod liver oil or other feeding oil in the dry mash. About two per cent by weight is a suitable amount.

More recent investigations show that the addition of a small amount of manganese sulphate to the ration will improve the quality of egg shells. The amount recommended is very small, being only four ounces per ton of feed, and the cost is only a few cents. To obtain an even distribution of manganese in the dry mash it is necessary to mix it first with one of the ingredients such as the meat and then add the meat meal to the main mixture. Thorough mixing is necessary.

A growing savings account reinforces your country's effort toward victory.

We've got to pay for the war and a savings account helps to do that because it enables you to accumulate funds for taxes, for Victory Bonds and for War Savings Certificates. It also provides for emergencies for yourself and your family. Open a Savings Account.

It's not only wise to be thrifty—it's urgent.

FACTS ABOUT CANCER

A lump in the breast is a danger signal, a warning to that person to seek medical advice. Not that a lump in the breast means that it is cancer. It is probably not, but it is also true that a certain number are and many more may become cancerous if neglected for any length of time.

A lump in the breast is a very definite danger. It is a red light of warning, but like a red light it becomes a safeguard if precautions are taken.

What should be done if you discover a lump in your breast? First of all don't get panicky or hysterical about it. It is not nearly so serious as many other conditions if attended to at once. There is practically a hundred per cent chance that nothing serious will come of it if proper medical advice is sought early.

Don't try to massage it away or use somebody's "donder oil" on it. You are only spreading it and making it more difficult for later treatment.

Don't be ashamed of it. Don't try to hide it or forget about it. See a doctor at once. Let nothing delay you because the delay is dangerous. Thousands of lives would be saved every year if it were not for the delay. Don't wait for pain to occur with the idea that if it isn't painful it cannot be cancer. Unfortunately, early cancer is not painful.

Don't put off consultation on account of expense. If you are needed by your family it is all the more reason for looking after yourself.
